Restore Act survey available

South Padre Island, TX, Dec. 14, 2018: The Texas Commission on Environmental Quality is requesting input from the public on how the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act (RESTORE) funds should be allocated. The survey will be available until Monday, Dec. 31. Click [HERE](#) to take the survey.

The priority of environmental efforts is currently being decided across the Gulf coast. The information that is collected through this survey will help determine the importance, focus area and strategies that Texas pursues in the next round of grant funding under the Council-Selected Restoration component of the RESTORE Act, also known as Bucket 2.

"The Community is encouraged to participate in this survey," said Brandon Hill, Shoreline director. "Topics that are important to the Island include our seagrass, birding habitat, strong beaches and dunes."
