Sea Island Circle Beach Access Grand Opening

The City of South Padre Island will host a grand opening on April 17th, 2024, at 10 a.m. for Beach Access #5, Sea Island Circle. This is the first major access improvement project to incorporate modern amenities and sustain an ecological dune habitat pathway.

The City worked with LJA Engineering on the project's design and construction was completed by Bryant Industrial Services. Federal funding is managed through the Coastal Management Program (CMP) for construction allotted for project development.

“The Shoreline department is grateful for the opportunities that CMP has created to help further improve beach access along the Texas coast,” says Kristina Boburka, Shoreline Director. “Our department is excited to unveil the new access improvements that will help serve our community and visitors.”

This project was funded in part by a Texas Coastal Management Program grant approved by the Texas Land Commissioner, providing financial assistance under the Coastal Zone Management Act of 1972, as amended, awarded by the National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management, pursuant to NOAA Award No. NA21NOS4190136.
